## Information

***1200W Portable Power Station's Advantages over Similar Products:***

- Automotive-grade lithium batteries, Charging and discharging cycles around 2000 cycles;
- Support charging for the small device while discharging, no matter which way you charge this power station;
- (Battery Management System (BMS))protect your devices from overload, over current, short-circuit, over-temperature,etc;
- Equipped with more AC ports compared with others, more convenient to charge your devices at the same time;
- The input port size of the generator is DC7909, which can match most solar panels. We suggest choosing our Solar generator, which has a directly welded power cord with a 7909 port, that's more efficient. 23% high conversion efficiency than others.
